Fellowship Hall is the perfect place for the wedding party members to relax until time to line up for the procession. This allows the groom to connect with his attendants until the appropriate time to see his lovely Bride.

After the ceremony, the wedding party will retreat to this room until time to take photos.

The classroom is where the bride and her attendants make their final adjustments before the wedding.

We provide mirrors for that last-minute look!

This is your wedding day and we want it to be picture perfect as you begin to share your lives together.

Fellowship Hall is available for an after wedding gathering. This couple invited their wedding guests to join them for a traditional Tea Ceremony.

This is one of the many ways Fellowship Hall could be used for your wedding experience.
